

10W RGB moving head laser light

Stamps

Technische Spezifikation

Katalognummer	66105
Brand	Optonica
Control Mode	DMX512(6/40CH), auto, sound, master-slave, ilda, SDcard
Control	3 pin DMX512, 25DB ILDA,SD card
Power consumption	250W Max

Operating Voltage	AC100-230V,50/60Hz
Scanning system	40kpps scanner, max \pm 30° Horizontal scan: 540° (16 bit precision scan) Vertical scan:270° (16 bit precision scan)
Configuration	10000W(R635-3W/ G525-3W/ B450-4W)
Beam Diameter	10W laser beam diameter 6*6.5mm;6Wlaser
Modulation	analog
Control Technology	RDM data bidirectional transmission temperature
DMX Channel Mode	pattern can output the function of unique blanking, strobe, rotation, movement, zoom
Warranty	2 Years
