

### 10W RGB moving head laser light

Stamps

## Technical Specification

<b>Brand</b>	Optonica	<b>Configuration</b>	10000W(R635-3W/ G525-3W/ B450-4W)
<b>Control Mode</b>	DMX512(6/40CH), auto, sound, master-slave, ilda, SDCard	<b>Beam Diameter</b>	10W laser beam diameter 6*6.5mm;6Wlaser
<b>Control</b>	3 pin DMX512, 25DB ILDA,SD card	<b>Modulation</b>	analog
<b>Power consumption</b>	250W Max	<b>Control Technology</b>	RDM data bidirectional transmission temperature
<b>Operating Voltage</b>	AC100-230V,50/60Hz	<b>DMX Channel Mode</b>	pattern can output the function of unique blanking, strobe,rotation,movement,zoom
<b>Scanning system</b>	40kpps scanner, max± 30° Horizontal scan: 540° (16 bit precisionscan) Vertical scan:270° (16 bit precision scan)	<b>Warranty</b>	2 Years
