Technical Specification

|                         |                   |                                  |         |
|-------------------------|-------------------|----------------------------------|---------|
| IP                      | 20                | Nominal Charge/Discharge Current | 230A    |
| Size of product         | 690 x 436 x 151.2 | Operating Temperature            | -20~55℃ |
| Operating Voltage Range | 200~1000Vdc       |                                  |         |
