IMPORTANT

These instructions should be read carefully before use and this document constitutes part of the product which should be kept safely by the user alongside the product.

BEFORE USE

You must inspect the fitting for any signs of damage. If the fitting is damaged, DO NOT use it, AND contact your supplier immediately.

SAFETY INSTRUCTIONS

- This item should be fitted by a competent person or a qualified electrician.
- For indoor use only.
- Do not use the fitting for other than its intended use
- Check the fitting before use for damage. If any damage is detected stop using it immediately and consult your supplier
- If in doubt about any aspect of the installation, please consult a qualified electrician

GENERAL SAFETY REQUIREMENTS

Domestic wiring must be tested periodically by a qualified electrician at least once every 10 years. For office and retail premises (and buildings such as village halls) the wiring must be inspected at least once every 5 years. It is recommended that all buildings be fitted with smoke alarms (it is mandatory for new buildings).
