

## LED TRACK LIGHT INSTRUCTION

**PLEASE READ THE INSTRUCTION CAREFULLY BEFORE USING IT**

### PRODUCT PARAMETER:

Item NO. : KOD-D12B  
Input Voltage: 200V-240Vac 50-60Hz  
Power ; 12W  
LED Type : COB chip  
QTY/LEDs : 1 pcs  
Lumen : 1100-1200 lm  
CRI : >85Ra  
Color TEMP : 2700K/3200K /4000K/ 6000K  
Driver : EMC and no flicking  
Input Current : 36V 290mA  
PF ; 0.87  
Color of Housing: white, black  
Material : aluminium housing + PC lens  
Size :  $\phi$  50mm \* L:130mm  
Adaptor : 2 wires / 3 wires / 4 wires  
Lens beam angle: 15° 24° 36°  
Working Temperature: -20°C to 50°C  
Store Temperature: -20°C to 70°C  
Package : 50pcs/ CTN  
Carton size :685\*285\*340 mm

### INSTALLATION:

Please install the track light into the standard track bar, such as two wires / three wires / four wires and so on.
