USER MANUAL

This user manual is applicable to the following lamp models which have button.

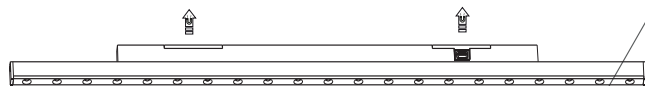

Install

1

Turn Off the Power

2

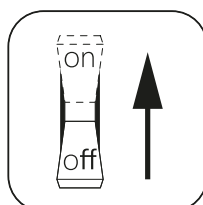

Insert the lamp into the track.
If you hear a "click" sound after the lamp is installed,
please check whether the lamp is firm and completely flush
with the track. If there is any protrusion,
please disassemble the lamp and reinstall it after checking.

3

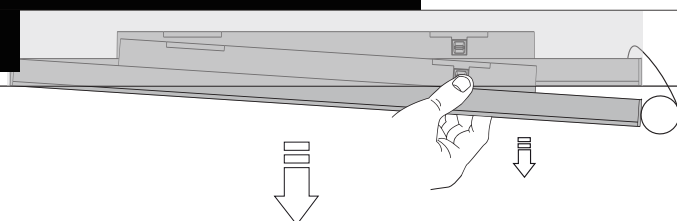

Please check whether the module
fits the track completely and there
is no protrusion

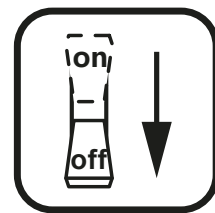

Turn On the Power

Uninstall

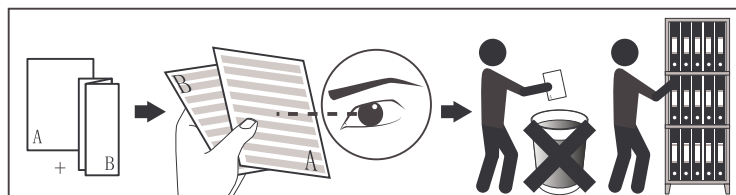

1

Use the hook to hook up the end of the module and
pull it out with your hands

Turn Off the Power

РЪКОВОДСТВО ЗА УПОТРЕБА

Това ръководство за употреба се отнася за следните модели лампи, които имат бутон.

Монтиране

1

Изключете
захранването

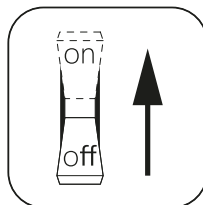

2

Поставете лампата в релсата.
Ако чуете „щракване“ след поставянето на лампата,
проверете дали лампата е здраво закрепена и изцяло
прилепнала към релсата. Ако има изпъкналост,
разглобете лампата и я поставете отново след проверка.

3

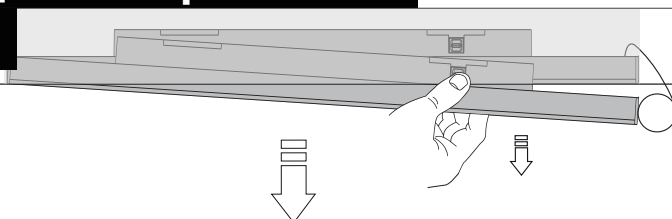

Моля, проверете дали модулет
се побира изцяло в релсата и няма
изпъкнали части.

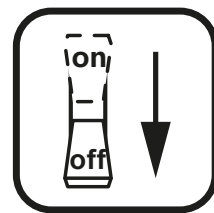

Включете
захранването

Демонтиране

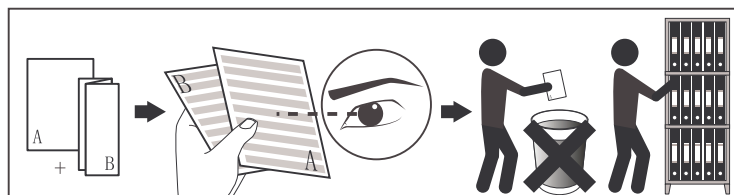

1

Използвайте куката, за да закачите края на модула и
го издърпайте с ръце.

Изключете
захранването

BEDIENUNGSANLEITUNG

Die Bedienungsanleitung gilt für folgende Leuchtenmodelle mit einem Druckknopf:

Installation

1

Schalten Sie den Strom ab

2

Vergewissern Sie sich, dass die Schiene mittels geeigneter Spannung betrieben wird. Setzen Sie die Leuchte in die Schiene.

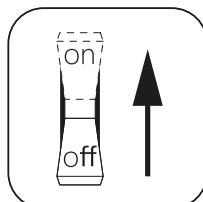

Wenn Sie nach der Installation ein Klickgeräusch hören, prüfen Sie bitte, ob die Lampe fest und bündig in der Schiene sitzt. Sollte die Leuchte aus der Schiene hervorstehen, bauen Sie die Leuchte aus und installieren Sie diese bitte erneut.

3

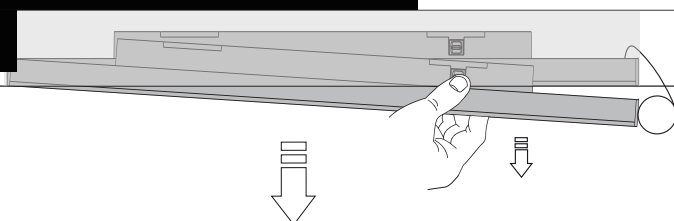

Bitte stellen Sie sicher, dass die Leuchte bündig mit der Schiene abschließt.

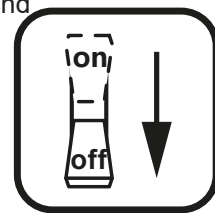

Schalten Sie den Strom ein

Deinstallation

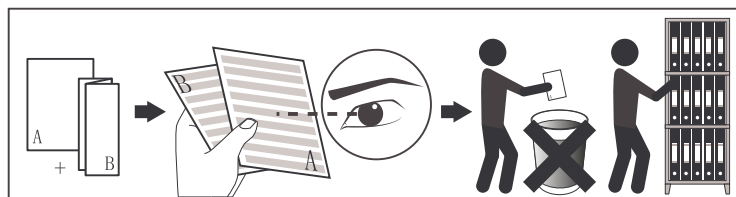

1

Schalten Sie den Strom aus. Nutzen Sie den Druckknopf, um das Ende der Leuchte zu neigen und anschließend mit der Hand herauszuziehen.

Schalten Sie den Strom ab

MANUALE DELL'USO

Il presente manuale d'uso è applicabile ai seguenti modelli di lampade dotati di pulsante.

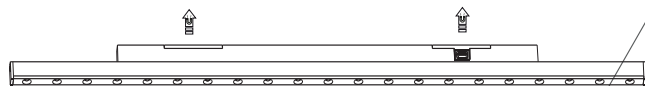

Installare

1

Spegnere
l'alimentazione

2

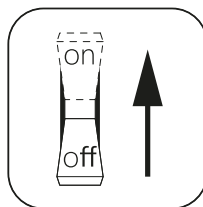

Inserire la lampada nel binario.
Se dopo aver installato la lampada si sente un "clic",
controllare che la lampada sia ben salda e perfettamente a filo
con il binario. Se è presente una sporgenza,
smontare la lampada e reinstallarla dopo averla controllata.

3

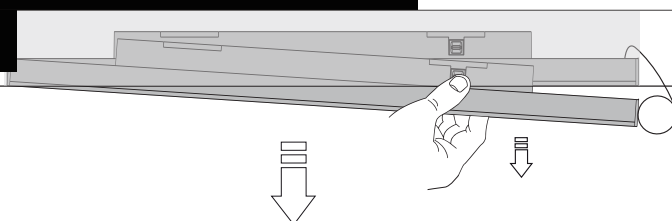

Verificare che il modulo si inserisca
completamente nella guida e che
non vi siano sporgenze

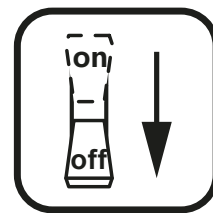

Accendere
l'alimentazione

Disinstallare

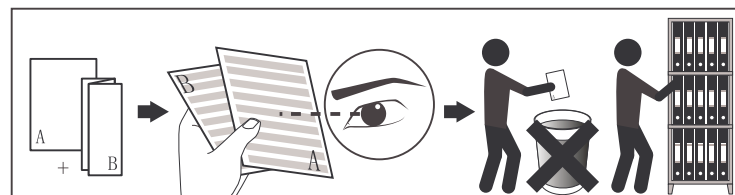

1

Utilizzare il gancio per agganciare l'estremità del
modulo e estrarlo con le mani

Spegnere
l'alimentazione
