OUTDOOR LED STREET LIGHT

Please take time to read this leaflet carefully and retain it for future reference.

Diagram:

Important Safety Information

- Do not wire this lantern into the lighting circuit - use a switched fuse spur.
- Before installation and servicing, disconnect the electrical supply at the mains.
- Carefully observe all instructions or warnings that are labelled on, or supplied with your product.
- This product is suitable for outdoor use. If in any doubt, consult a qualified electrician.

Fixing instructions

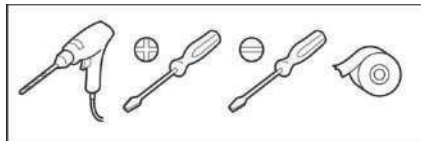

- Do not wire this lantern into the lighting circuit - use a switched fuse spur.
- This fitting must be earthed. contact a qualified electrician to install a suitable earth facility.
- Ensure the electricity is turned off at the mains before installing or maintaining any electrical fitting.
- Please note: For new installations, check for any electrical cables or pipe work (gas/water) in the vicinity of the intended mounting point for this product, before proceeding with the installation.

General Information

Do not mount ceiling/wall fittings onto damp surface such as newly painted or plastered areas as this may cause discolouration of the finish.

Tools which may be required:

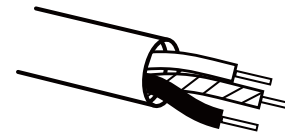

- Drill
- Cross Head Screwdriver
- Small Electrical Slotted Screwdriver
- Insulation Tape

Installation:

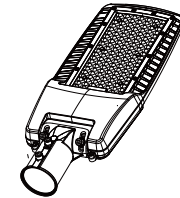

Note: before installation.

Only use a **round cable supplied** to connect this fitting. (6mm Diameter minimum.)

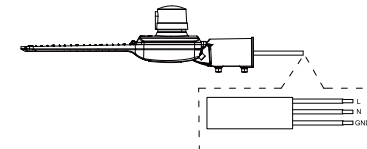

This is required in order to create a good water seal when connected to the fitting.

1-Fasten the adjustable bracket with stainless steel screws

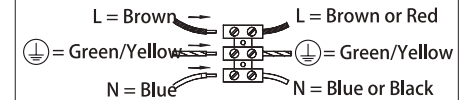

2-Connect the Main Line to the power wire of the lamp.

3-Ensure the terminal connection is made inside a suitable IP65 rated junction box.(not included)

From Floodlight

From IP65 Rated Junction Box

4-Install the LED street lights in the pole and wall.

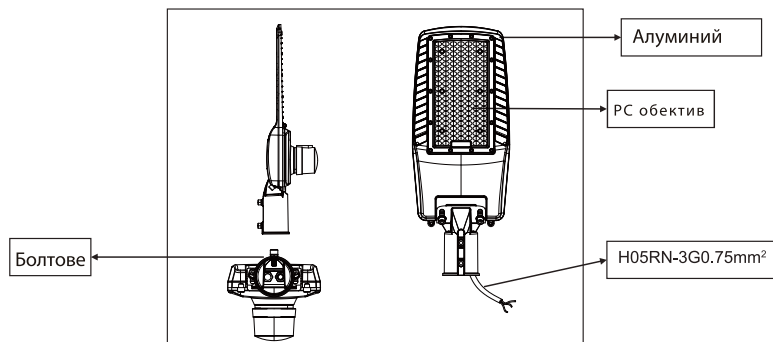

This product should be disposed of responsibly at the end of its life. Please recycle where facilities exist. Check with your Local Authority or retailer for recycling advice (Waste Electrical and Electronic Equipment Directive)

ОПТОНИСА

ВЪНШНО LED УЛИЧНО ОСВЕТЛЕНИЕ

Моля, прочетете внимателно тази листовка и я запазете за бъдещи справки.

Схема

Инструкции за безопасност

Не свързвайте този продукт към осветителната верига - използвайте превключващ предпазител. Преди монтаж обслужване изключете електрическата мрежа. Внимателно спазвайте всички инструкции предупреждения. Този продукт е подходящ за употреба на открито. При съмнения, консултирайте се с квалифициран електротехник

Инструкции за монтаж

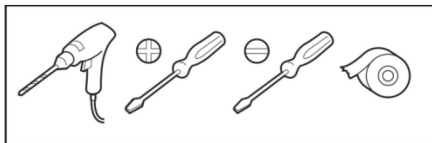

Не свързвайте този продукт към осветителната верига - използвайте превключващ предпазител. Свържете се с квалифициран електротехник, за инсталация и заземяване. Уверете се, че електричеството е изключено, преди да монтирате или обслужвате. Внимание: При нови инсталации проверете за електрически кабели и тръбопроводи (газ/вода) в близост до предвидената точка за монтаж.

Главна информация

Не монтирайте върху влажна повърхност или наскоро боядисани или измазани зони, тъй като това може да причини повреда на покритието.

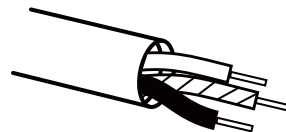

Инструменти, които може да са необходими

Пробивна машина
Електрическа отвертка
Отвертка с кръстосана и с права глава
Изоляционна лента

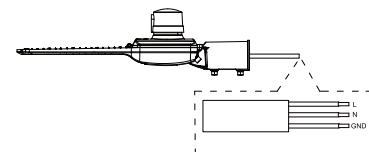

Монтаж

Използвайте предоставения кръгъл кабел за инсталацията. (минимум 6мм диаметър)

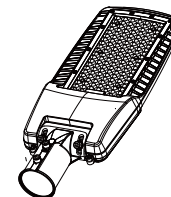

Това е необходимо, за да създаде добро уплътнение.

2-Свържете главната линия към захранващия проводник на лампата.

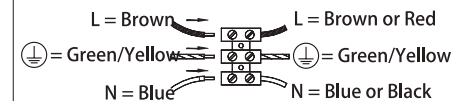

1-Закрепете конектора на лампата със стоманени винтове.

3-Уверете се, че свързването е направено с подходящата съединителна кутия IP65 (не е включена)

за улично осветление

за съединителна кутия IP65

4 -Инсталирайте LED уличното осветление в стълба или стената.

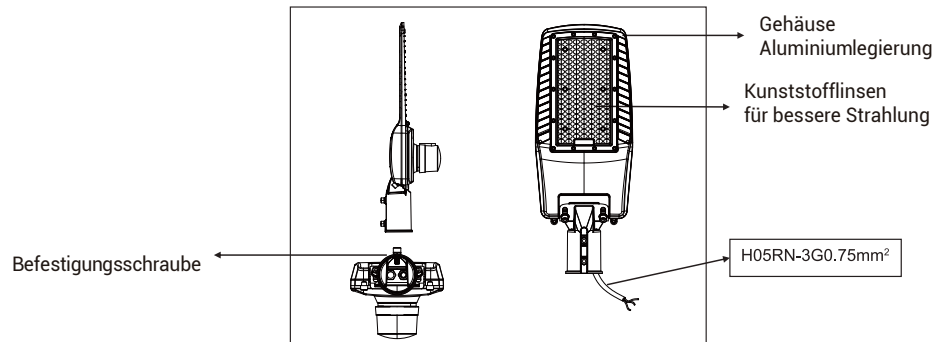

Този продукт трябва да се изхвърли отговорно в края на живота му. Моля, рециклирайте на обозначените за това места. (Директива за отпадъци от електрическо и електронно оборудване)

OPTONICA

LED Straßenleuchte

Bitte nehmen Sie sich die Zeit um die Beschreibung vor der Installation zu lesen und bewahren Sie sie zum späteren Nachschlagen auf.

Beschreibung:

Wichtige Sicherheitsinformation

- Schließen Sie Straßenleuchten nie an einen bestehenden Beleuchtungskreis an. Nutzen Sie einen eigens geschalteten und entsprechend abgesicherten Stromkreis.
- Vor Installation oder Service der Leuchte bitte vergewissern, dass die Leuchte vom Netz/Stromanschluss getrennt ist.
- Beachten Sie bitte alle Sicherheitshinweise und Warnungen am Produkt und in der Beschreibung.
- Diese Leuchte ist für die Verwendung im Außenbereich konzipiert. Montage bitte nur durch eine qualifizierte Person durchführen lassen.

Montagehinweise

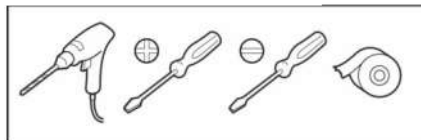

- Schließen Sie Straßenleuchten nie an einen bestehenden Beleuchtungskreis an. Nutzen Sie einen eigens geschalteten und entsprechend abgesicherten Stromkreis.
- Beachten Sie das die Leuchte geerdet sein muss! Wenden Sie sich an einen qualifizierten Elektriker, um einen geeigneten Erdungsanschluss herzustellen.
- Vor Installation oder Service der Leuchte bitte vergewissern, dass die Leuchte vom Netz/Stromanschluss getrennt ist.
- Bitte beachten Sie: Überprüfen Sie bei Neuinstallationen, ob sich elektrische Kabel oder Rohrleitungen (Gas/Wasser) in der Nähe des vorgesehenen Montagepunkts für dieses Produkt befinden, bevor Sie mit der Installation fortfahren und Schäden vermieden werden können.

Allgemeine Information

Achten Sie bei Montagebohrungen darauf, dass der Untergrund trocken und tragfest ist. Andernfalls kann es zu Schäden kommen.

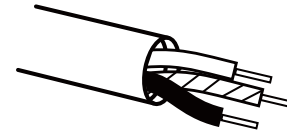

Benötigte Werkzeuge:

Bohrmaschine
Kreuz-Schraubendreher
Phasenprüfer-Schraubendreher
Isolierband

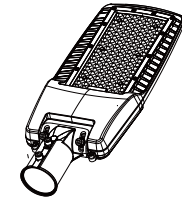

Installation

Verwenden Sie zum Anschließen der Straßenleuchte nur das vorinstallierte Kabel und nehmen Sie keine Änderungen vor.

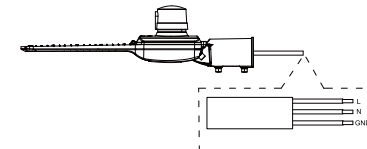

Dies ist notwendig um die Wasserdichtheit des Anschlusses zu gewährleisten.

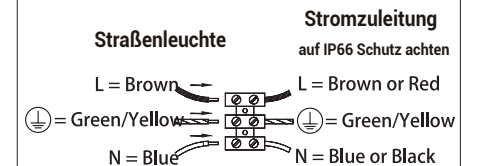

1-Drehen Sie die mit gelieferten Schrauben, zur Halterung an einer Montagebasis, ein Stück weit in das Gewinde ein.

2-Verbinden Sie die Zuleitung der Leuchte mit dem Netzanschluss. Achten Sie dabei auf spannungsfreies Arbeiten und einen korrekten Erdungsanschluss.

3-Stellen Sie sicher das die Klemmverbindung des Stromanschlusses in einer geeigneten IP66 Verbindungsdose hergestellt wird (nicht im Lieferumfang enthalten).

4-Nach korrektem Anschluss am Stromnetz kann die Leuchte an einer geeigneten Montagebasis (Mast oder andere Montagemöglichkeit nicht enthalten!) montiert werden. Vor Inbetriebnahme überprüfen Sie bitte nochmals auf korrekte Installation.

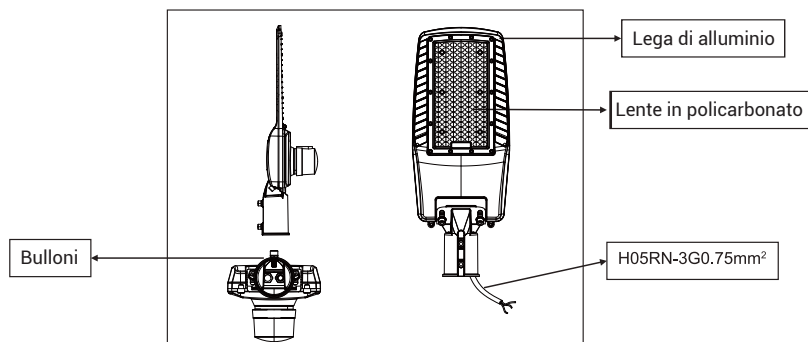

Nicht im Hausmüll entsorgen! Sollte eine Leuchte defekt sein, so muss diese ordnungsgemäß recyclet werden. Wenden Sie sich an entsprechende Entsorgungsstellen oder an den Händler.

OPTONICA

LAMPIONE LED DA ESTERNO

Si prega di leggere attentamente questo opuscolo e conservarlo per riferimenti futuri.

Diagramma:

Informazioni importanti sulla sicurezza

- Non collegare questa lanterna al circuito di illuminazione: utilizzare un fusibile con interruttore.
- Prima dell'installazione e della manutenzione, scollegare l'alimentazione elettrica dalla rete principale.
- Osservare attentamente tutte le istruzioni e avvertenze riportate sull'etichetta o fornite con il prodotto.
- Questo prodotto è adatto per uso esterno. In caso di dubbio, consultare un elettricista qualificato.

Istruzioni per il fissaggio

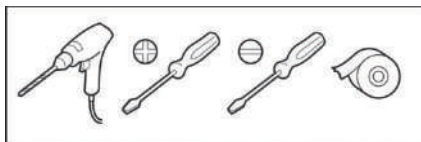

- Non collegare questa lanterna al circuito di illuminazione: utilizzare un fusibile con interruttore.
- Questo apparecchio deve essere messo a terra; contattare un elettricista qualificato per installare un impianto di messa a terra adeguato.
- Assicurarsi che l'elettricità sia disattivata dalla rete principale prima di installare o effettuare la manutenzione dell'apparecchio.
- Nota: Per nuove installazioni, verificare la presenza di eventuali cavi elettrici o tubature (gas/acqua) nelle vicinanze del punto di montaggio previsto per il prodotto, prima di procedere con l'installazione.

Informazioni generali

Non montare gli accessori da soffitto/parete su superfici umide, come quelle appena verniciate o intonacate, poiché ciò potrebbe causare scolorimento della finitura.

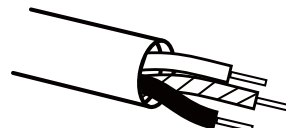

Strumenti che possono essere necessari:

- Trapano
- Cacciavite a croce
- Piccolo cacciavite a taglio per impianti elettrici
- Nastro isolante

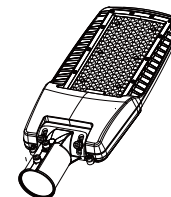

INSTALLAZIONE

Utilizzare solo un cavo rotondo fornito per collegare questo apparecchio (diametro minimo 6 mm).

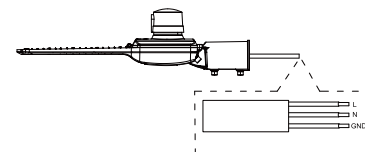

Questo è necessario per garantire una buona tenuta all'acqua quando è collegato all'apparecchio.

1-Fissare il connettore della lampada con viti in acciaio inox.

2-Collegare la linea principale al cavo di alimentazione della lampada.

4-Assicurarsi che il collegamento ai terminali sia effettuato all'interno di una scatola di derivazione con grado di protezione IP65 (non inclusa).

5-Installare il lampione LED sul palo o sulla parete.

Questo prodotto deve essere smaltito in modo responsabile alla fine del suo ciclo di vita. Si prega di riciclarlo dove possibile.
(Direttiva sui rifiuti di apparecchiature elettriche ed elettroniche - WEEE)
