

OPTONICA

USER MANUAL - LED FAN CEILING

IMPORTANT

PLEASE READ BEFORE INSTALLATION

> SAFETY PRECAUTIONS

FAN MUST BE INSTALLED BY QUALIFIED PERSONNEL

1. Turn off the main circuit breaker at the fuse box.
2. The power supply must be AC220-240V 50/60Hz.
3. Do not operate the reverse function when the fan is still moving. Wait for it to come to a complete stop before changing the function.
4. Do not insert any objects into the path of the blades.
5. After all electrical connections have been made, store all cables in an orderly manner.
6. Make sure that all screws and connections are tight and secure.
7. Power cables with current and neutral must be connected to a double-pole switch with a contact of at least 3mm on all poles.
8. The ceiling fan must be mounted at a minimum height of 2.3 metres from the floor.
9. When mounting the bracket to the ceiling, ensure that the mounting allows a clearance of 2.13m to the floor and a distance of 1m to any wall or object.

> WARNING

To reduce the risk of personal injury, do not bend the blade supports during assembly or after installation. Do not insert any objects into the path of the blades.

> CLEANING AND MAINTENANCE

Switch off the power supply and wait a few minutes before cleaning.

After cleaning and maintenance, wait until it is completely dry before use.

Do not clean the appliance directly with water. Use a damp cloth without solvents.

Do not disassemble or modify the product. It is recommended to check and clean this product regularly to prolong its life.

> TROUBLESHOOTING

Read carefully if you detect any malfunction.

If the fan does not work properly, make sure that the electrical connections are correctly made.

If you hear any sound, check that the screws are properly tightened and secured.

If the fan is rocking, tighten the mounting bracket screws correctly.

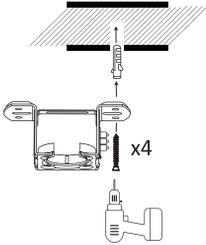

> ENVIRONMENT

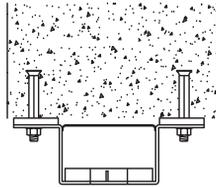

Do not dispose of electrical devices in household waste. Their components may be harmful to the environment. Dispose of them at an authorized electrical device recycling center. By purchasing this appliance, you have already paid for its recycling at the end of its life cycle.
