

OPTONICA

User Manual

1. Turn off the power switch (Picture 1).
2. Unscrew the mounting bracket screws from the lamp mounting base (Picture 2).
3. Secure the mounting bracket to the wall using the supplied screws and wall plugs, tightening them firmly (Picture 3).
4. Connect the input terminals of the junction box to the mains power supply (220V–240V) (Picture 4).
5. After wiring, fasten the lamp base to the mounting bracket with screws (Picture 5).
6. Install an E14 light source, then screw the glass globe clockwise onto the lamp holder thread and tighten it. After checking that everything is correct, turn on the power switch. The lamp is now ready for use (Picture 6).
