

OPTONICA

User Manual

1. Turn off the power switch (Picture 1).
2. Unscrew the mounting bracket screws from the lamp mounting base (Picture 2)
3. Secure the mounting bracket to the wall using the screws and wall plugs provided in the installation kit, and tighten them firmly (Picture 3).
4. Connect the input terminals of the junction box to the mains power supply (220–240V) (Picture 4)
5. After wiring, fasten the lamp base to the mounting bracket with the screws (Picture 5)
6. Install an E14 light source, then screw the glass globe clockwise onto the lamp holder thread and tighten it. After checking that everything is correct, turn on the power switch – the lamp is ready for use (Picture 6).
